

Name	Dr. Mrs. Urmil J. Mehta	
Division	Plant Tissue Culture	
Email	uj.mehta@ncl.res.in	
Phone	020-25902217 / 25902705	
Fax	020-25902645	
Education and experience	<ul style="list-style-type: none"> <li>• M.Sc. Botany, University of Pune</li> <li>• Ph.D. Biotechnology, University of Pune</li> <li>• 34 years research experience on <i>in vitro</i> regeneration aspects of Tree species, Ornamentals and Orchids, Horticultural and Plantation crops.</li> <li>• <i>In vivo</i> and <i>in vitro</i> evaluation of growth; heavy metal tolerance and accumulation potential; studies on stress physiology and genetic transformation of suitable plants for phytoremediation.</li> <li>• Nanobiotechnology</li> </ul>	
Achievements	<ul style="list-style-type: none"> <li>• Optimized protocols for <i>de novo</i> organogenesis and <i>A. rhizogenes</i> mediated genetic transformation.</li> <li>• Identified potential heavy metal hyperaccumulators native to Mn and Cu mine sites.</li> <li>• Biosynthesis and characterization of intra and extracellular nanoparticles by living plants.</li> </ul>	
Research subjects	<ul style="list-style-type: none"> <li>• Life Sciences</li> </ul>	
Research Areas	<ul style="list-style-type: none"> <li>• Micropropagation; <i>in vitro</i> morphogenesis; genetic transformation</li> <li>• Application of biotechnological tools for Phytoremediation</li> <li>• Biochemical and biophysical studies of heavy metal stress</li> <li>• Synthesis of nanoparticles using plants</li> </ul>	
Recent publications	<ul style="list-style-type: none"> <li>• D. Raju, Sulekha Hazra, <b>Urmil J. Mehta*</b>. Bioremediation, Biodiversity and Bioavailability (2013) 7(1):54-60.</li> <li>• D. Raju, <b>Urmil J. Mehta*</b>, Absar Ahmad*. Current Nanoscience (2013) 9: 107-112.</li> <li>• D. Raju, <b>Urmil J. Mehta*</b>, Absar Ahmad*. Biotechnology and Applied Biochemistry (2012) 59(6):471-478.</li> <li>• V.S.S. Prasad, M. M. Jana and <b>Urmil J. Mehta*</b>. Bionano Frontiers, Special Issue-6 (2011)113-118.</li> <li>• D. Raju, <b>Urmil J. Mehta</b>, Sulekha Hazra*. Trees – Structure and Function, 25 (2011) 145-151.</li> </ul>
